THE COAL STRIKE SETTLED

The United Mine Workers of America have accepted the terms offered by President Wilson for the settlement of the strike that his paralyzed adustry for the past five weeks and rought the country to the verge of tarvation through the scarcity of coal. starvation through the scarcity of coal.
The men get an increase of fourteen
per cent. in their wages. This is the
principal consideration, but there will
be necessary meetings between the
men and the operators to settle he
seale and other matters which have a
bearing upon local circumstances.
However, the new will now return to
work and the mining of coal will be

However, the men will now return to work and the mining of coal will be proceeded with. It is a matter for congratulation that the strike has been settled. Canada was just an interested in the strike as was the United States, as one suppression of the strike as was the United States, as one super continuous that Canada should be so helpless in the face of those American industrial upheavals. Not only were the industries and public utilities of this country at the mercy of the strikers, but our railway traffic was demoratized. The story is not a new one. When the steel strike occurred over there can add also suffered, and even the circle of declers as the lings rannot be helped wings to our proximity to the States. The Solar Corons, as photographed by Dr. Morize, director of the Rio Janeiro Observatory, at Sobral, Brazil, on May 29, 1919. This photograph is one of the best taken at that time. Note the great ceronal stamers extending out one million miles: also the great "prominence" at the left hand, upper portion. It was 100,000 miles high and had a base of 300,000 miles and is the largest eruption of the sum ever photographed.
